KENT USED BOAT SHOW

Welcome to Clarke & Carter Kent October 2017 Used Boat Show

Clarke & Carter are here to help you with your boating requirements whether you are looking to base your boat in the UK or elsewhere in the world. Clarke & Carter is the largest yacht broker on the East and Kent Coast specialising in both new and used yachts and power boats.

New Yachts

Clarke & Carter have successfully supplied and commissioned 100's of yachts in both the UK and the Mediterranean. In 2014 we celebrated our 35th anniversary of trading. If you are looking to change your current boat, we can offer a part-exchange against our range of new Jeanneau yachts. This service gives you the ability to order your new boat with the confidence that you know the cost of change, even if your boat is not sold by the time your new boat arrives, from the day you place your order.

Brokerage Service

At Clarke & Carter we offer a comprehensive and professional brokerage service. We advise on all aspects of the sale of your boat based on our thorough knowledge of the current market – from what to include in the inventory, to its presentation and asking price. We make our sales particulars stand out from the rest by making sure they are full of comprehensive information gathered from our listing agreement, photographs of your boat inside and out together with a layout plan, original brochure and magazine reports from our library.

After Sales both new and brokerage boats

Clarke & Carter have a dedicated team to provide after sales, warranty and spare parts service to make life that bit easier if things go wrong. The team will provide you with impartial advice on aspects of maintaining and updating your boat from specialist gelcoat repairs and laminating, hull painting woodwork, equipping your boat for an extended trip, to general day to day maintenance.

New Boat Handover Service

At Clarke & Carter we pride ourselves on making sure you get the best out of the boat you purchase and to that end we have handover days. Your new boat will be handed over by one of the team members to show you where everything is and how it works, this takes about 4-5 hours to go through. This includes all the onboard electronics which will have already been set up and calibrated beforehand.

The next day, we will provide you with some professional tuition to take you out on your first trip. We will take you through the boats operation under both sail and power to make sure you are up to speed with all the equipment and handling characteristics of the boat.

Marine Finance & Insurance

Clarke & Carter work closely with the leading marine finance and insurance companies to introduce you to the organisation that can provide you a solution that best meets your needs.
